

LOOKING FOR HELP?

The teacher, the principal, or the special education teacher can provide help with problem solving for learning needs. They can also bring in other staff from outside the school to assist with problem solving. The school has a list of community agencies that can help with many problems.

Students - *do you need to talk to or email someone?*

- Kids Help Phone: 1-800-668-6868
- www.kidshelpphone.ca
- www.haltonyouth.com

Parents - *do you need to talk to other parents?*

There are many parent organizations that can help you. Many are members of SEAC.

What is SEAC?

SEAC is short for the Special Education Advisory Committee. This committee advises the board on special education issues. It consists of representatives from local associations including the Association for Bright Children, Autism Society Ontario, Community Living Association, Easter Seals Society, The Halton Down Syndrome Association, Tourette's Syndrome Foundation of Ontario, VOICE for Hearing Impaired Children, and the Learning Disabilities Association of Halton Inc.

For information about SEAC organizations, call the Halton District School Board ~
New Street Education Centre: **905-631-6120 ext. 323**
